

America is on Line

Anyone out there that has a computer should without a doubt be on line with AOL. For over a month now there has been some very nasty slamming of our Dogs from the GSD people. One person left a note on the GSD board asking about the Shiloh Shepherd. Boy did that start things ticking. The GSD people had a field day tearing our Dogs apart. Some of the quotes are as follows: "Long haired, oversized wanna be GSD's", "looks like it must have Newfoundland in it," "A big hairy imitation of a GSD" "Straight-backed, clumsy, reject GSD's," and my favorite, "Mutants". There were a great deal more that I can't remember. Well one phone call to MaShiloh was all it took. Thank God for Ma, very few of ALL the Shiloh people got on board to help. Ma not only defended our Breed, she educated the GSD folks on their Breed. It got very heated to say the least. The GSD people could not stand the fact that Ma knew more about their Dogs than they did. Well what happens when you think you know it all and don't?? Some of the GSD people got very nasty to say the least. So bad that AOL got involved and removed some of their posts. With nothing intelligent to say, they got racial, and sexist.

Aol also gave the GSD board a warning after they removed their posts, (the Shiloh BB did not receive a warning). Ma was fighting a one woman war, and was winning. Everything they would come back on she had a very educate reply. All they kept telling her was to "Go Home". I tried a post in a very pleasant tone and was ignored. The GSD's people seem very angry, all they ever seem to want is a fight. First it was with the poor White Shepherds, now with the Shilohs.

The point of this article is to make you aware of what is going on so you may jump in and defend your Breed. Many people read these boards all over the country. Through this debate Ma won over a number of people who now wish to own a Shiloh Shepherd. Don't just sit back and expect Ma or anyone else to defend your Dog, get involved. If Ma hadn't been so active those people who now want a Shiloh could have very well believed the mis-truths the GSD people said and purchased one of their dogs. Don't leave Ma out there alone, be proud of your dog and be active about it, not only on their BB but on ours. It is a good place to talk about your dogs. Let each other know about Shows, up coming litters, etc.
